SETTING UP THE APPLICATION ENVIRONMENT

Docker CLI Installation

Date	15 OCTOBER 2022
Team ID	PNT2022TMID01390
Project Name	Skill/Job Recommender Application

Docker CLI Installation:

Containers   Give feedback 🗨

A container packages up code and its dependencies so the application runs quickly and reliably from one computing environment to another. Learn more

Run a Sample Container

Try running a container: Copy and paste this command into your terminal and then come back

```
docker run -d -p 80:80 docker/getting-started
```
